Word to Parents:

Today life has become so fast and we are busy throughout the year. But children are priceless gift given to us and we are responsible for their future. We are answerable both to our own children and to our creator who had given us the responsibility. We should not ignore spending quality time and effective communication with our children as they are powerful tools to foster a strong bond and affectionate relationship with the children. Hence try the following few tips during this vacation and see the magic in your children's day to day life.

1. Instead of expensive gifts or elaborate meals spend at least few hours a day together as a family.
2. Try to eat at least dinner together with your children and ask them to speak and listen to them carefully.
3. Over caring and over protective becomes absolute disaster for child's overall growth. So allow your children to play, fall down, and get hurt and rise. Keep away from social media and take few hours to visit your neighbours, relatives and less privileged people. Allow your children to chat and share things with them.
4. Narrate lot of bedtime stories with good moral values.
5. Spend time to make them memorize few important Suras of Quran and inculcate in them fear of God and nothing in this world can happen without His desire.

School reopens on June 18th, 2018.

Happy Vacation and pray for us to serve you better.
